1. State tax is applicable to these classifications

NOTE: For purposes of the state general property tax only, the net tax capacity of non-commercial class 4c(12) seasonal residential recreational property has the following class rate structure:

First \$76,000	0.40%
\$76,000 — \$500,000	1.00%
Over \$500,000	1.25%

NOTE: For purposes of the state general property tax only, the net tax capacity of class 3a property (with the exception of: electric generating public utility machinery, all other public utility machinery, and any machinery, implements and/or tools identified as personal property) has the following class rate structure:

First \$150,000	0.00%
Over \$150,000	2.00%

In addition to the state tax base exemptions referenced by property classification, airport property exempt from city and school district property taxes under M.S. 473.625 is exempt from the state general property tax (MSP International Airport and Holman Field in St.Paul are exempt under this provision).

2. Exempt from referendum market value based taxes.
3. A Homestead for Persons who are Blind or have a Disability is no longer Class 1b throughout the entire property chain. For up to the first tier of \$50,000 the property is identified as Class 1b with excess value identified as either Agricultural Homestead HGA (2a), Agricultural Homestead non-HGA (2a, 2b) or Residential Homestead (1a) and following the remaining rate and tier structures. The Class 1b \$50,000 tier should be considered part of the 2a,2b,1a tier structure and not a separate classification
4. For assessment years 2022 and 2023, the first value tier is set at \$100,000. The first-tier limit was previously adjusted annually by the average statewide change in estimated market value of property classified as class 4a apartments and 4d low-income rental housing properties, excluding valuation change due to new construction. Beginning with assessment year 2024, this value may be adjusted again.
